Ceta Form Tool Containers & Assortments

Smart service solutions

Due to our investment of sheet steel forming plant in 2004, we are now able to offer not only excellent quality tools but also excellent quality, smartly designed tough tool containers to keep your tools as in their first-day conditions.

In this chapter, you will also find tool assortments in Ceta Form SBS – “smart box system” inlays. Our tool containers combined with SBS inlays offer the ultimate in service organization regardless of the size of the service.

Heavy duty oil proof rubber wheels, Ø 125 mm

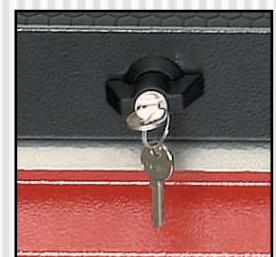

Low friction telescopic ball bearing slides

Holders for spray cans and paper rolls

A17P

EMKA Central locking mechanism

SBS Inlays

The ultimate in service organization

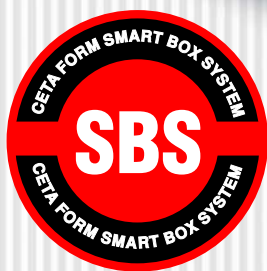

Our new SBS Inlay program consists of 25 modular tool trays with different contents addressing a variety of needs. Compatible with almost all of the tool containers we offer, the SBS inlays offer the ultimate in service organizations when combined with our tool containers.

Increased efficiency in workshops, missing tools can be identified at a glance.

Finger spaces for easy placement and removal of tools.

Three dimensional cut outs (whereas most companies in the market offer 2D cut outs) which provide the optimal slot for the tools.

Chemically resistant high quality EVA material.

SBS inlays are compatible with almost all of the tool containers we offer.

Possibility to build up almost 3.400.000 different combinations (calculated for a 5 drawer tool cabinet); hundreds of user profiles can be addressed.

Ceta Form Tool Containers & Assortments

Smart service solutions
